NASA SPACE APPS CHALLENGE EVENT FLOW

3rd October:
9AM: Hackathon Begins - **All the teams can officially start with their Projects.**

9:30AM - 11:30AM: We will share a Google Form in the official Whatsapp group in which the teams have to provide their **final team details**, **GIT repo** (one repo for one team in which all the members will commit their code and it will be monitored by our mentors) **and their detailed project idea** (a description about your idea for the hackathon in 200 - 300 words).

3:00PM onwards: Mentor Session will begin. **The mentors will have a 8 - 10 min session with each participating team** and evaluate their ideas based on **Impact, Creativity, Validity and Relevance.** Meeting links and timings will be shared on the WhatsApp group and everyone should adhere to the timings and disciplinary principles.

9:00PM - 11:00PM: Teams have to submit a **report, maximum of 3 pages** on work done on 3rd Oct and their plan of action to complete their solution on 4th.

GitHub Updates: Codes / Pictures of CAD Model should be updated on GitHub regularly as mentioned below:
For Day 1
GitHub Update 1: 2:00PM
GitHub Update 2: 8:00PM

4th October:
10:00AM - 12:00PM: The teams whose mentor session couldn't take place on 3rd October, will have their mentor session.

GitHub Update 3: 12:00PM

1:30PM: On the basis of the evaluation and marks given by the mentors to each team, **Top 15 teams will be shortlisted for the Virtual Pitch Session with the judges.**

3:00 PM onwards: Selected teams will have to give a **presentation of maximum 8 minutes to the judging panel about their solution.** The presentation must include (*Details: team name, members, problem they are trying to solve, Idea description, Work done, how is the solution given will address the problem, etc. - mentioning all the details that they feel could improve their presentation*). The presentation will be **followed by a QA session of 5 min.**

The Aaruush Room, Opposite Placement Cell
SRMIST, Kattankulathur, Tamil Nadu - 603203
www.aaruush.net
www.srmist.edu.in

[Note: Your presentation will be stopped after 8 mins. So please don't make a long ppt. Also joining late for the pitch session will reduce your presentation time.]

GitHub Update 4: 6:00PM

11:59PM: **Deadline for submitting your final code / CAD model on the Nasa Space Apps site** (link will be shared during the event). Any request for extending the deadline will not be entertained.

Note: **All the teams participating in the Hackathon should submit their final code/model on the portal. If any team is not able to complete their project due to any mistakes, etc., they should also submit whatever they have done on the portal.**

Participation Certificates will be provided only to those who will submit their project on the portal at the end of the event.

5th - 6th October:

On the basis of the **marks given by the judges, project submitted and regular updates on GitHub during the event,** the winners will be declared by Aaruush on their social media platforms.
